Subject: Fwd: RSC Distribution: Tiering - August 2018 Tiering Approval Report

Please see below the approved Uptier for the "Once In Always In" rulemaking from a Tier 3 to a Tier 2 rule. Hopefully this helps ensure the rule is developed properly.

This is a first for OECA since I have been the RSC rep.

Thanks for all your help.

Keith

Tier Change Request:

Lead Office: OAR

Proposed: Uptier - Tier 3 to Tier 2

SAN 4908: NESHAP Amendment: General Provisions for Once In Always In

External Abstract: These amendments would address when a major source can become an area source, and, thus, become not subject to national emission standards for hazardous air pollutants (NESHAP) for major sources under Clean Air Act (CAA) section 112. The amendments will implement the EPA's plain language reading of the CAA section 112 definitions of "major" and "area" sources as discussed in the January 2018 William Wehrum memorandum titled "Reclassification of Major Sources as Area Sources Under Section 112 of the Clean Air Act." (See notice in 83 FR 5543, February 8, 2018.) This action will provide an opportunity for interested persons to provide comment on many of the same issues covered in the 2007 NESHAP: General Provision Amendments (72 FR 69, January 3, 2017).
